

Challenge 5 - The Viking Village - Worksheet

Location and Time: Iceland, 981 AD

Story:

Logonator has put a curse on the famous Viking, Erik the Red, giving him a terrible fear of water. This will prevent him from discovering Greenland and setting up the first Norse settlements. To lift the curse, you must work out the answer to Logonator's question and write the answer with rune shapes.

Success Criteria:

Answer the question and write the answer on the stones in Viking runes.

Note: Add comments to make your code easier to debug (use a semi-colon (;) before the comment). You could do this for each letter of the solution. Use the bk command in this challenge as well as the protractor.
