

Where is Earth's water?

Have a go at this quiz to see how much you've learned this lesson!

Where is most of the water on Earth found?

1. in rivers
2. in oceans
3. in lakes

What percentage of the global water is freshwater?

1. 2%
2. 2.5%
3. 3%
4. 5%
5. 1.3%

Most of the freshwater we have is locked up in...

1. glaciers, ice caps and in the ground
2. in the ground
3. in lakes
4. in oceans

What are the three states of matter? (Choose 3 options)

1. liquid
2. gas
3. steam
4. water vapour
5. solid
6. condensation

What is the name of the cycle describing how the water on Earth gets recycled?

1. The Liquid Cycle
2. The Recycle Cycle
3. The Water Cycle
4. The Rain Cycle

What is evaporation?

1. When water vapour (gas) turns into water droplets (liquid)
2. rain, snow, sleet, or hail
3. When water (liquid) heats up and turns into water vapour (gas)

What is condensation?

1. When water vapour (gas) turns into water droplets (liquid)
2. rain, snow, sleet, or hail
3. When water (liquid) heats up and turns into water vapour (gas)

What are the four stages of the Water Cycle? (in the correct order, starting from the oceans)

1. evaporation, condensation, precipitation and run-off
2. condensation, precipitation, evaporation and run-off
3. run-off, evaporation, condensation and precipitation
