Instruction Writing 2

Snakes and Ladders Challenge

The makers of Snakes and Ladders are holding a competition to redesign the game and I would like you to enter.

You will need to design everything from the board, to the box and your **writing focus** will be to write the instructions for your game.

**Guidance for the task**

- You can keep it traditional, or change the animals and the rules. It's up to you!
- Your instructions must be clear and easy to follow. You can achieve this using the skills we have learned about instruction writing so far!
- I have attached some templates that you can use for your designs and your instructions if you want. You are also free to do your own thing if you choose!
