### Viking Writing

Page 8-9 of Viking Invaders and Settlers shows the Viking alphabet. I have also included an example below. Could you write your name in Viking writing?

---

Next, could you write a message in Viking, imagining that you are a Viking invader? It could be a message home, a note to someone or a record of something you have done.

You could use art materials to carve the writing into something like you did previous work, or simply use a pencil and paper!
