

Draw the following shapes using a ruler.

Describe 3 properties of each shape.

Use mathematical vocabulary.

Try to make your answers as varied as you can.

Words to help you:

Sides  
Angle  
Equal  
Parallel  
Perpendicular  
Regular  
Irregular  
Inside angles add up to.....  
Acute  
Obtuse

1	Square	Has 4 equal sides Has 4 right angles Has perpendicular sides.
---	--------	---

- 2 Rectangle
- 3 Parallelogram
- 4 Right angled triangle
- 5 Rhombus
- 6 Scalene triangle
- 7 Trapezium
- 8 Equilateral triangle
- 9 Isosceles triangle
- 10 Kite
- 11 Regular pentagon
- 12 Irregular pentagon
