

Name of artwork	Artist	Date of birth	How do you react to the piece? There is no right or wrong response to this.
Beaming	Josef Albert	1888 - 1976	The three squares, which grow in size, suggest growing up and maturity. The square shape suggests fairness and equality, as all sides on a square are the same. It also suggests to me that we should build on experience to make our lives better. The colours get lighter because it shows that you can turn bad experiences into positive ones with the right mind-set.
