

Week Beginning Monday 4th January 2021

Happy New Year children. I hope you had a wonderful Christmas and have had a lovely holiday with your families. We are going to be doing our school work differently for the time being so I have been hunting for lots of fun activities to help you with your learning at home. The good news is that we have Seesaw in school so you can post pictures and let me know how you are getting on at home. I can't wait to see how you are doing. We are also really lucky to have a great online library called Curriculum Visions, which is full of books for us to read. I have found lots of books on nature as I know how much you enjoy playing outside. Happy learning!

DAY	MATHEMATICS	ENGLISH TASKS FOR THIS WEEK	OTHER SUBJECT TASKS
Monday			
Tuesday			
Wednesday	<p><u>Maths Lesson 1</u> Session One (White Rose Maths). Today's lesson teaches us how to find matching pairs. Our learning challenge was to make a collection of matching pairs of buttons, but you can use anything that comes in pairs like shoes or gloves. Count how many pairs you find and post a picture on Seesaw.</p>	<p>Read p1-12 <u>Close to Nature</u> Curriculum Visions. The book asks you to think about all the nature that surrounds us. Can you draw and label 5 things in nature you might see on a walk?</p>	<p>Art-drawing Practise your sketching skills by drawing a natural object that you like the look of. This may be a leaf or flower, or one of the birds you have seen. Artprojectsforkids.org have lots of drawing tutorials teaching some great techniques.</p>
Thursday	<p><u>Maths Lesson 2</u> Session Two (White Rose Maths). Today's challenge is for you to sort 20 socks into matching pairs. This is a great way to start learning how to count in twos. If you can write numbers you can label your socks in a number line 2,4,6,8.....</p>	<p>Read p12-28 <u>Close to Nature</u> Today the book tells us how a tree grows from a tiny seed. With a grown up can you draw and label how a seed grows using the pictures for clues.</p>	<p>This morning's book asked you to think about your favourite tree. Take your crayons or chalk and have a go at tree rubbing. If you have rainbow colours, you could try making a rainbow rubbing. Can you find any different textures to try?</p>
Friday	<p><u>Maths Lesson 3</u> Session Three (White Rose Maths). Today's challenge is to find lots of lids around your house. Draw around them on to paper then see if you can find the matching lid.</p>	<p>Read p28-31 <u>Close to Nature</u> Today the book asks you to think about your favourite bike ride or walk. For today's task draw and label this journey. You might like big hills or have a favourite playground.</p>	<p>Writing-Make a birdwatching book Keep a log of all the different birds you can see. See if you can remember this morning's book. Have a try at photographing the different birds you can see.</p>
