

Thank you so much for all your photographs and posts on Seesaw. I was so impressed to see how creative you got with last week's maths activities. I even saw a repeated pattern made from balloon printing and potatoes. Going forward, there will only be a daily White Rose maths activity posted on the timetable, as parents who have fed back say they take 30-45mins (and are good fun). If you do want to top up, there are plenty of maths (and phonics) games to play on Purple Mash.
