relation pollution chorus education cholera situation  
anchor construction chemist translation chef population  
character machine parachute chalet moustache action

**Choose a word and write it in one of the boxes below.

-------	-------	-------

**The object of the game is to find out which letters are in the word in your partner's box and guess what the word is.**

Take it in turns to ask your partner if the word contains a letter of your choice. Put the correct letters in Spud's bowl. The first person to guess the word is the winner. You can guess the word at any point during the game, but only before your turn. However, if you guess wrongly, Spud goes in the doghouse and you are out of the game.
